Summary

Java Developer with hands-on experience in Java development through internships and projects. Skilled in Core Java, Spring Boot, REST APIs, Hibernate, SQL, and MySQL, with experience in developing backend services and database-driven applications. Familiar with Spring MVC, Struts, JDBC, OOP, Collections, HTML, CSS, and Git. Proficient in DSA, with experience solving programming problems and focusing on efficient, maintainable code.

Experience

Full Stack Developer Intern – NetLeap IT Training and Solutions **Jan 2025 – Mar 2025**

- Built and enhanced web application features using **Java**, **Spring Boot, PHP, HTML, and CSS,** with a focus on functionality and user experience.
- Implemented **RESTful APIs** with **Spring Boot** to connect frontend components with backend services and support database interactions.
- Managed **MySQL** databases by designing tables, writing SQL queries, and performing **CRUD operations** for efficient data management.
- Contributed to team projects by troubleshooting issues, testing application functionality, and refining features to improve performance and usability.

Java Developer Intern – R3 Systems India Private Limited **June 2022 – Aug 2022**

- Implemented Java-based modules using OOP principles, reusable components, and structured programming practices to meet application requirements.
- Integrated database functionality with **Java, JDBC, and MySQL, writing SQL queries** for storing, retrieving, and updating application data.
- Diagnosed logical issues through debugging and testing, while refining code to improve the reliability and efficiency of implemented features.
- Handled assigned modules across the development lifecycle by understanding functional requirements, implementing solutions, and validating features through testing.

Projects

SpendWise — Smart Expense Management System – Lead Developer GitHub

- Addressed personal finance management challenges by creating a desktop-based Expense Tracker for recording, organizing, and monitoring income and expenses.
- Designed a **Java Swing** application featuring user authentication, transaction management, dashboard-based balance tracking, and structured transaction history.
- Integrated MySQL for managing user accounts and financial transactions, with CRUD operations for adding, updating, retrieving, and deleting records.
- Strengthened data security and reporting by applying **jBCrypt** for password hashing and generating financial reports in PDF, XLSX, CSV, and TXT formats using **iText and Apache POI.**

FinSecure — Secure Banking Financial Transaction System – Lead Developer GitHub

- Created a secure Banking Portal REST API with **Java and Spring Boot** to manage user authentication, accounts, deposits, withdrawals, fund transfers, and transaction history.
- Secured banking operations through **JWT authentication, Spring Security**, role-based authorization, and BCrypt password encryption to protect user data and API access.
- Structured the backend using **Controller, Service, Repository, DTO, and Entity layers, leveraging Hibernate/JPA** for organized business logic and database interactions.
- Connected the system with MySQL for persistent data storage while applying input validation and global exception handling to deliver reliable and consistent API responses.

Education

Bachelor In Computer Engineering, MET's Bhujbal Knowledge City Institute of Engineering **2026**

Diploma In Computer Engineering, K. K. Wagh Polytechnic **2023**

Technical Skills

Languages	Java SQL PHP
Frameworks	Spring Spring Boot Spring MVC Hibernate Struts
Development	RESTful APIs Backend Development Web Development HTML CSS PHP Bootstrap
Backend	JDBC ODBC Spring Security JWT
Database	MySQL RDBMS Database Design SQL Queries Database Connectivity
Core Concepts	OOP Collections Data Structures and Algorithms
Tools	Git GitHub Postman MySQL Workbench VS Code Eclipse IntelliJ IDEA Apache Tomcat
AI Tools	ChatGPT GitHub Copilot Google Gemini Claude Microsoft Copilot

Certifications & Achievements

Java Software Programming & MVC, TechnoKraft Training & Solution Pvt. Ltd. [Certificate] **2022**
Java Developer Intern, R3 Systems India Private Limited [Certificate] **2022**
Full Stack Developer Intern, NetLeap IT Training and Solutions [Certificate] **2025**
Research Paper: Linguistic-to-Visual Transformation, IJPREMS [Certificate] **2026**
Java Full Stack Development with GenAI, AccioJob Skill Centre **2026**
